

Shim Driver

Increase productivity and reduce fatigue for the shim driving process using our pneumatic shim driving tool.

The Shim Driver tool helps speed up the process of shim driving. We developed the best product that allows the masons to easily and quickly drive steel shims between key bricks

SHIM DRIVER KIT

SPECIFICATIONS

BLOWS PER MINUTE (BPM)	1800
STROKE LENGTH	76mm (3")
HOSE SIZE (ID)	12.7mm (1/2")
AIR PRESSURE (PSI)	90 - 100
AVG. AIR CONSUMPTION (CFM)	24

P/N 1894- SHIM DRIVER KIT

1893	HOSE, ASSEMBLY, 10', 1/2 BARB-TITE HOSE, SHIM DRIVER
1887	AIR HAMMER, RD SHANK, RED, SHIM DRIVER GUN

allows for high impact on shims to ensure tight radial installation

Since 1968, we've been dedicated to enhancing the safety and efficiency of refractory maintenance crews around the world. We are the only manufacturer to offer a full-system, start-to-finish approach, from bricking machines and safety cages to conveyors and ramps. Our custom-design service ensures no matter what crews are up against, they have the equipment they need to minimize downtime and ensure everyone goes home uninjured each day.
