

TE360 HYDRAULIC DRIFTER

- Percussion System With Automatic Stroke Adjustment
- Adjustable Percussion Impact Rate
- Sleek Design with a Low Profile
- High Power to Weight Ratio

The TE360 was designed to incorporate TEI's patented Automatic Stroke Adjustment ASA percussion system with the high torque of the RDS350 rotary drill. The ASA only allows the percussion unit to operate at full force when the drill tools are engaged. The energy and frequency of the piston comes to full power when the shank adapter pushes the piston back into the full-power mode. When hitting a void or not having enough down pressure on the mast the ASA automatically reduces the energy and frequency of the piston.

TE360 HYDRAULIC DRIFTER

	ENGLISH	METRIC
Impact Energy	90-120 lbf-ft	122-163 joules
Impact Frequency	3400-4200 BPM	3400-4200 BPM
Supply Pressure	2250 PSI	155 bar
Percussion Flow	20 GPM	76 LPM
Output Power	12.4 HP	9.22 kW
Rotation Torque	1800 lbf-ft	2400 NM
Rotation Speed	Up to 250 RPM	Up to 250 RPM
Rotation Flow	10 GPM	38 LPM
Weight	210 Lbs	98 Kg
Shanks Available	1.00 - 1.25 - 1.50 Rope, T38 Williams 32 - 38, Titan 30 - 40	

*Specifications are subject to change.
TEI technical specifications consider a 40% hydraulic power loss.*

A WORLD LEADER IN DRILLING ATTACHMENTS, LIMITED ACCESS DRILLS & HYDRAULIC DRIFTERS

TEI Rock Drills is an international leader in the design and manufacture of Drilling Attachments, Limited Access Drills and Drill Rig Components.

TEAM TEI delivers value to our customers with innovative, safe products on the cutting-edge of technology.
